

Aloka Debi

Dr. Aloka Debi, born on January 3, 1949, is an accomplished academician and author with a distinguished career in the field of Chemistry and Environmental Science. She completed her B.Sc. with Honours in Chemistry from Bethune College in 1970, followed by an M.Sc. in Pure Chemistry from Science College, University of Calcutta in 1972. She earned her Ph.D. in Analytical Chemistry from the same institution in 1981.

Over the years, Dr. Debi has served as a Senior Lecturer at Central Calcutta Polytechnic and later as an Assistant Professor at Techno India University, where she taught Chemistry and Environmental Studies. Her academic contributions extend beyond the classroom into scholarly authorship. She has authored several textbooks widely used by undergraduate and polytechnic students, including:

Environmental Science & Technology (University Press, Hyderabad)

Basic Chemistry for Polytechnic Students (Bhagobati Publication, Kolkata)

Environmental Engineering for Polytechnic Students (Bhagobati Publication, Kolkata)

Environmental Science and Engineering for Polytechnic Students (Dhanapat Rai, New Delhi)

Chemistry (XI & XII) – Vocational (Bhagobati Publication, Kolkata)

Environmental Studies (XII) – Vocational (Bhagobati Publication, Kolkata)
